Promethean +2 System Retro-Fit Mount Kits

We have developed a range of Retro-Fit Mount Kits to enable the existing Promethean Short Throw Projector on a Promethean +2 Interactive Whiteboard and Short Throw Projector System to be replaced with a new alternative Short Throw Projector. Please see the images of the four versions of +2 Systems with Short Throw Projectors fitted below and the Retro-Fit Mount Kit applicable to it.

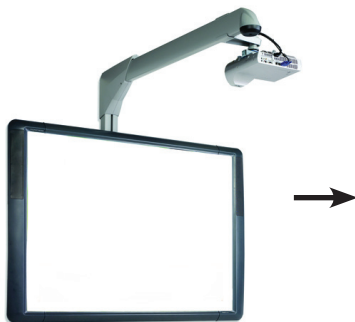

Promethean +2 System Version 1

This system is identified by its ROUND projector mounting pole which comes up from the rear of the IWB and over the CENTRE where the projector is mounted. Our Retro-Fit Mount Kit for this system is the RA4.3-PM-100

Promethean +2 System Version 2

This system is identified by its RECTANGULAR projector mounting arm which is slightly off-set to the left above the IWB. Our Retro-Fit Mount Kit for this system is the RA4.3-PM

Promethean +2 System Version 3

Almost identical in appearance to the version 2 above but with a round tip on the end of the projector mounting arm. Our Retro-Fit Mount Kit for this system is the RA4.3-PM

Promethean +2 System Version 4

This system has a very FLAT projector mounting arm positioned over the centre of the IWB. Our Retro-Fit Mount Kit for this system is the RA4.3-PM
